## WORK EXPERIENCE

### Front-End Developer

#### CRAFT BENT SOLUTION (Intern)

- Developed modern, responsive user interfaces using **HTML**, **CSS**, **JavaScript**, **React.js**, and **Next.js** to enhance user engagement.
- Followed best practices for **code readability**, documentation, and modular structure to ensure maintainability.

### CODE SOLUTIONS(Intern)

#### Front-End Developer

- Developed and maintained **responsive**, **cross-browser compatible** websites and landing pages with clean, semantic code.
- Integrated RESTful APIs and handled **JSON** data to dynamically render and update web content.

## PROJECTS

### Weather App (Live Weather using API)

**Tech:** Next.js, Tailwind CSS, OpenWeatherMap API

Built a weather forecasting app with features like city-based search, geolocation weather fetching, and light/dark mode toggle. Uses real-time API data with graceful loading and error handling.

### Movie Explorer App (Real TMDB API)

**Tech:** Next.js (App Router), Tailwind CSS, TMDB API

A responsive movie search platform that fetches real-time movie data using the TMDB API. Includes trending movies, search functionality, and clean card-based UI with dark mode support.

### Stopwatch App

**Tech:** HTML, CSS, JavaScript

A basic stopwatch app with start, pause, and reset features. Highlights time-based logic implementation in vanilla JavaScript.

### To-Do List App

**Tech:** HTML, CSS, JavaScript

A simple to-do list that allows users to add, mark as complete, and delete tasks. Demonstrates core JavaScript logic and DOM manipulation skills.

## SKILLS

HTML

CSS

JavaScript

React.js

Next.js

JSON

GitHub
